Unable to Get Coal, the Great Industries Are Closing and Adding Thousands to Number of Unemployed—Government Resolved on Fight to Finish.

Only Three Coal Miners In All United Kingdom Continued Work Monday

London, October 18.—Only three coal miners in all the United Kingdom continued to work Monday.

BY A. S. JOHNSON, United News Staff Correspondent.

London, October 18.—London's great parade of unemployed, intended to be a quiet demonstration, broke bonds suddenly Monday afternoon and developed into the worst stick-and-stone battle between metropolitan Bobbies and civilians since the modern labor movement began.

Jeering and Horse Play.

Far, aside from some jeering and horse play, everything was peaceful. Mated together on the embankment the unemployed were expected to wait there, a mile from parliament, while their mayors, fifteen in number, went to Westminster to confer with Premier Lloyd-George regarding amelioration of the industrial situation.

Then the Riot Began.

From the riot began, stones flew from out of the crowd and the police drew their riot sticks and beat with the front ranks. But the pressure of oncoming mobs was now so great that the police in front could not go back.

He Will Not Take Food.

According to the league bulletin, a doctor told MacSwiney that his condition is becoming more precarious. When he becomes unconscious the doctor is said to have declared he would feed him as far as he could while he was unconscious.

Told of Fitzgerald's Death.

A later bulletin said that the lord mayor had been told of the death of Fitzgerald, one of the Cork hunger strikers, but that the information apparently had not affected his condition.

MORE CORK STRIKERS LIKELY TO SUCCEED.

Cork, October 18.—The death last night of Michael Fitzgerald, first of the eleven hunger strikers in the Cork jail to succumb to the results of their fast of more than two months, probably will have an extremely bad effect upon the other hunger strikers.

Charges that the opposition was preventing the voters from reading the league covenant were repeated by the governor and he reiterated

ALLEGED THAT LEAGUE VIOLATED U. S. LAW

By Carrying on Negotiations With Foreign Governments Regarding Controversies Without Permission of United States—League to Enforce Peace Spread Propaganda for Acceptance of Versailles League of Nations.

St. Louis, Mo., October 18.—Scores of confidential letters from the files of the League to Enforce Peace, of which William Howard Taft is president, were introduced into the record of the senate committee investigating campaign expenditures here late today. Names of a number of prominent New York bankers were mentioned in the correspondence.

D. H. Hunt, attorney for the committee, who investigated the activities of the league, reported that "in my estimation" officials of the league have violated the Logan act, passed January 30, 1919, which prohibits American citizens carrying on negotiations with foreign governments or their agents regarding disputes or controversies without the permission of the United States.

## URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts. Occasional days of meat forms uric acid which almost always clogs the kidneys in their efforts to expel it from the blood. Tacy become sluggish and weak, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, "lithiasis," your stomach aches, tongue is coated and when the weather is hot you have rheumatic twinges. The uric gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take them abundantly in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink. (adv.)

abroad on a similar mission, is now in Germany on a mission to get Germany into the league.

letters between Mr. Short and George W. Wickersham in which Mr. Short proposed a campaign in the interest of Governor Cox, and Mr. Wickersham agreed in part.

Mr. Short refused to give up the letters, the report states, on the ground that they were personal.

A letter from Mr. Wickersham to Mr. Short, dated July 30, 1920, says: "Thank you, my dear Mr. Short, for Arthur Sweetser's memo. It is very logical and sound. How much better was Governor Cox's speech of acceptance than that of Senator Harding."

Taft Threatened to Resign. Other correspondence shows that Mr. Taft threatened to resign from the presidency of the league if it present a partisan part in politics and reiterated his belief that Senator Harding will be elected and that "the one hope of securing the league with the Lodge reservations is through the republican candidate."

The Hunt report says that the League to Enforce Peace spent \$2,500 to finance a letter sent by Samuel Gomper to 50,000 persons asking the union members to bring pressure to bear on senators to have them vote for the league of nations.

Other items of expenditure include bills for publication of advertisement in forty-four cities throughout the country and two bills, one of \$24,553.25 and the other of \$10,534.22 from the Western Newspaper Union.

A letter from Theodore Marburg of Baltimore, to Secretary Short, dated August 12, 1920, said that "the most direct road to ratification (of the treaty) is the complete defeat of the political party which has suffered the consequences of its unscrupulousness."

Another letter from Mr. Marburg to Mr. Short, written at Baltimore on April 29, 1920, discussed an article in the league magazine written by Hamilton Holt and adds: "I strongly urge that the article in question be reprinted in the type and style of a newspaper clipping—this from the Times preferably—and that it be sent to every democratic and republican convention and to the meeting of the conventions."

The correspondence shows that President Taft has actively opposed any participation of the League to Enforce Peace in the present political campaign. A letter from Mr. Taft to Mr. Short on August 19, 1920, says:

"I am opposed to a series of questions propounded by the League to Enforce Peace to presidential candidates. Such questions cannot but take on a partisan attitude."

Alleges Harding Lacks Principle. A carbon copy of a letter from Mr. Short's files, addressed to Mr. Taft, under the date of August 13, 1920, said:

"Personally, I find myself much inclined to act with the Cox forces and am under the impression that a good many of those who, like myself, have hitherto been republicans, are likely to do so in the course. Many others will support Harding. Professor Irving Fisher's report furnished considerable reason to believe that Harding will yield to pressure as the canvass goes forward, but his own declaration of principle do not commend him to me."

On August 7, 1920, Mr. Taft sent two letters to Mr. Short, one being a confidential note, which said: "I am inclining this with a more formal statement because I do not wish to threaten to resign as a means of preventing action by the executive committee which the members of that committee may think it wise to prepare to take."

But if they conclude to take any action looking to the support of one party rather than the other, I feel that Harding is going to be elected and that the only chance to the league will be through reservations is through him and his success."

The "more formal" letter, which accompanied the private note, said, in part:

"One hope of securing the league with the Lodge reservations is through the republican candidate. His statement is not so thoroughly satisfactory to me, but I still think that circumstances will require him to conform to the action twice recorded in favor of the league with the Lodge reservations, and he had said nothing in his acceptance speech which will prevent him coming to this solution of the difficulty which will come before him in an attempt to negotiate a peace, a new association or league such as he suggests in his acceptance speech."

League Sought Big Money. That the League to Enforce Peace solicited \$5,000 contributions from a number of wealthy men and women is indicated in a letter from Secretary Short to Mr. Wickersham under date of July 2, 1919. The letter asks Mr. Wickersham to solicit such contributions from Mrs. O. H. Belmont, T. Coleman DuPont, Albert H. Gary, James W. Gerard, William H. Nichols, John D. Rockefeller, Jr., all of New York; the late Senator Murray Crane, of Patton, Mass.; and Theodore Crane reach the late Theodore N. Vall.

More of the organization's financial condition is indicated in a telegram from Herbert S. Houston to Edward A. Piene, sent on February 21, 1919, when Mr. Piene was attending the making of the mortgage loan congress for the league of nations at Salt Lake City, Utah. The telegram, which the league magazine raises as "the troupe" follows:

"Scott, Cleveland Dodge, Morrow and I giving luncheon Tuesday at Bankers' club and hope to raise considerable funds. Chicago, of Boston, sending \$16,400. Hill reports \$50,000 of the \$80,000 in definite pledges in Chicago. Hope you are getting abundant funds in west. Best regards to all members of the troupe."

A confidential letter from Mr. Short to Mr. Taft on July 8, 1919, says that Senator Hitchcock, democratic leader in the fight for the league of nations, was presented at a conference with Samuel Gomper, president of the American Federation of Labor, when plans were made to have labor unions bombard senators with pleas for ratification of the treaty and league covenant.

The letter says in part: "You will be interested to know the results of a conference I had in Washington last Wednesday."

With Mr. Gomper with reference to bringing to bear the full power of organized labor on the senate. Senator Hitchcock was present and fully concurred in what was agreed upon.

Explaining how letters would be sent by Mr. Gomper to 50,000 local unions suggesting they write to senators urging ratification of the treaty, Mr. Short says the letters (the latter) are going out immediately and the work will cost about \$2,500, which will be taken to pay from funds of the league.

Oliver Wilson, master of the national grange, to take similar action with the local granges. A telegram from Mr. Boyd this morning tells me that he has agreed and wants the work to go out from this office. I assume that he will expect us to pay the bill for that also.

"You will be pleased to know that our income for the month was substantially identical with the outgo, so we are holding our own, and have a bank balance at the end of the month of \$37,089.01."

In a letter to Mr. Taft, under date of December 19, 1919, Mr. Short asks the former president to insure the work of the "foreign press service," which he describes as an organization of the bureau of public information during the war, "as an official guaranty of its purpose and character." The letter says, "I can say that Mr. Martin Egan, of the Foreign Press Service, is a thoroughgoing inquiry, is advising Mr. Thomas Lamont to lend his name and influence to the service."

The letter states that the foreign press service spent \$15,532.74 for its service for the year 1919, the money being provided for the "most part" by charitable disposed people who were willing to have the work go on. It is proposed now to raise a fund of \$150,000 to finance the service during the second year of its work.

Root to Marburg. A letter from Elihu Root to Theodore Marburg, dated December 19, 1919, was a reply also a part of the report. Mr. Marburg wrote to Mr. Root on January 5, 1920, saying: "I know you feel keenly the damage done our interests and to the president's administration by our delay to ratify the Versailles treaty. . . . The object of this letter is to express my willingness to permit the democratic senators to vote for the reservations regarding the League of Nations. I am willing to be ratified without an effective reservation regarding that article."

"The point at which pressure will have to be applied, if it is to be effective, is at the white house. Regarding that I feel quite helpless."

Today's session of the senate committee was largely devoted to examining the report of the democratic national committee from Missouri, in connection with rumors that he of the expenses of delegates to the democratic state convention at St. Louis, Mo., and the national convention at St. Louis, Mo., was \$4,195 and raising money from friends to defray part of the expenses of a special train to the state convention. The money was paid to 23 members of the St. Louis democratic committee in full.

Mr. Goldra told of expending \$4,195 and raising money from friends to defray part of the expenses of a special train to the state convention. The money was paid to 23 members of the St. Louis democratic committee in full.

## MACON MINISTER FLAYS THE POLICE

Dr. Ellis Takes Fling at Alleged Social Evils, Failure of Prohibition to Prohibit and Gambling.

Macon, Ga., October 18.—(Special.)—Open gambling, the spread of the social evil, the sale of whisky and the speeding by automobile drivers, all came in for discussion by Dr. T. D. Ellis, pastor of Mulberry Street Methodist church, in his sermon last night, during which he bitterly denounced Chief of Police Martin Thompson, members of the police department and other public officials, who, he said, were responsible for existing conditions.

Dr. Ellis told his congregation that he saw a number of large bets made on the world's series baseball games while the detailed play of the games was being called in front of the office of a local newspaper, the money being passed within six feet of several policemen.

An instance of a Macon man who, Dr. Ellis told, was told by the chief of police to "stop the sale of whisky yourself if you want it steeper," he said, Dr. Ellis said the man told him he had gone to the chief to get him to put a stop to a certain class of dispensing whisky, whereupon the police chief is alleged to have made the remark just noted.

Does Not Prohibit. Dr. Ellis admitted that prohibition has failed to prohibit, and that instead of conditions getting better they are growing worse. He said he used to go for a week at a time and not see a drunken man on the streets, but that now you can see them every day and smell whisky on the breath of many of the others.

As to whether or not the abolition of the civil service commission of the legislature was a good thing, Dr. Ellis expressed doubt. He asked whether the city government has failed to function since the commission was abolished. "Something is wrong," he said, "the trouble lies at the door of the police. We are in great danger in this city from immoral gambling, the return of the social evil, the sale of liquor in quantities and easily accessible to anyone and all streets made race tracks until our lives are in danger."

Following Dr. Ellis' talk to his congregation a number of the influential members of the church took issue with him, some saying his attack was not justified by the facts, while others said that Dr. Ellis had failed to touch the real issue.

Asked to Prove Charges. B. F. Merritt, chairman of the police committee of city council, announced this evening that Dr. Ellis will be asked to prove his charges. "Something is wrong," he said, "the trouble lies at the door of the police. We are in great danger in this city from immoral gambling, the return of the social evil, the sale of liquor in quantities and easily accessible to anyone and all streets made race tracks until our lives are in danger."

## RESERVE BOARD URGED TO ASSIST FARMERS

Washington, October 18.—Declaring that "someone" must finance this year's crops, George F. Hampton, managing director of the Farmers' National Council, today wrote the federal reserve board suggesting that, in event the board definitely decides against making an effort to get its members to discount farm paper and warehouse receipts, the government borrow money and deposit it in national banks to be loaned to farmers at

not more than 1 per cent in excess of the rate the government pays. Farmers thus would be able, Mr. Hampton said, to hold at least a part of their crops until they can get out of production plus a reasonable profit or until there is an effective consumption demand.

# YOU NEVER CAN TAME A WILD-CAT

Mr. Dodson Warns Against Use of Treacherous, Dangerous Calomel.

Calomel salivates! It's mercury! Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your drugstore and get a bottle of Dodson's Liver Tonic for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it. (adv.)

# You Wouldn't Eat Bread That Was Only Half "Risen"

Half "risen" means only partially fermented, and causes flatulence and indigestion.

Yet, unless you choose wisely, you will be apt to drink one of the half-fermented beverages that the great demand for soft drinks has called forth in a rush.

Drink Schlitz in Brown Bottles. It is wholesome, fully fermented, and then Pasteurized. These processes take time.

When you make bread, you allow it to ferment fully, rise to double its bulk. Then you bake it, to kill the ferment—which is a living organism. After fermentation is complete, the ferments should be killed. They have done their work.

So with Schlitz. It is aged—fermented—fully ripe. Then it is Pasteurized so as to kill the ferments, which, as living organisms, are not good for the stomach.

When we say Schlitz is pure, we mean that it contains no living organisms to ferment in your stomach.

Why trifle with a two-day "rapid-transit" beverage? It is bound to make your stomach resentful. Order Schlitz—and be certain of pleasant after-effects.

# BLOOD IS FUEL TO THE BODY

Pumped Through the System by the Heart, It Sustains the Muscles and Tissues.

# PEPTO-MANGAN HELPS BLOOD

Keep the Quality of Your Blood at Its Best—It Means Vigorous Health and Ability to Accomplish.

Blood acts like a fuel. Pumped through the body by the heart, it sustains the muscles and tissues. It renews them. It feeds the brain—tissues of the brain and spine. That is why people look so pale and lifeless when blood is impoverished. The body is supplied with weak fuel. The blood has not got enough red corpuscles. You would not eat poor food with no nourishment in it; no more should you let the fuel that supplies sustenance to your entire body be inferior. Have good blood. Improve the quality and keep it at its best. If you look pale and feel weak, if you have lost your enthusiasm and energy, if your blood is clogged with poisons, your system is being fed with a poor grade of blood. That is no way to go about it. If you are not at your best, get at the source of the trouble right away. Put an end to half-living.

Take that ideal tonic, Pepto-Mangan, to tone up your blood and purify it. Give it full enjoyment out of living. Breathe fresh air take exercise.

Be sure to ask for "Gude's Pepto-Mangan." It comes in convenient tablet form and in liquid. One has the same medicinal value as the other. There is only one genuine Pepto-Mangan, and the name "Gude's" is on the package.—(adv.)

**COLLEGE PARK GETS  
CAR FARE INJUNCTION**

Power Company Must Win in Court in Order to Raise Rates.

The proposed increase of street car fares from five to seven cents on the Atlanta-College Park line on October 20, announced by the company some time ago, will not go into effect for the present at least, as Judge George L. Bell temporarily enjoined the company from increasing the rate Monday morning on a petition presented by the city of College Park through City Attorney A. C. Brown.

Judge Bell set the case for hearing on October 20, and in the meantime the company cannot raise the rates.

The College Park petition contains the following principal allegations: That the city of College Park has a binding contract with the power company for a five-cent fare and a free transfer on the College Park line.

That the power company, and its predecessors, have always heretofore recognized the validity and binding force of this contract.

Petition Turned Down.

That the power company in 1918 petitioned the railroad commission for six-cent fares, with two cents extra for transfers, upon all of its lines, and the commission held itself to be without jurisdiction over the College Park fares because of the above mentioned contract.

That the power company thereupon instituted mandamus proceedings to compel the commission to take jurisdiction over College Park fares, and in this proceeding it attacked the validity of the contract, and the contract was upheld by the Supreme Court of Georgia, which held that the contract was valid and subsisting in 1917, when the legislature enlarged the railroad

**WILLIAMS QUILTS  
RACE FOR WATSON**

Republican Candidate for Senate Says Watson's Views Parallel His, and Asks Republicans to Combine With Thomson Man.

C. P. Gore, chairman of the republican party in Georgia, has received a communication from G. H. Williams, of Dublin, asking that the latter be allowed to withdraw his republican candidacy for the United States senate in Georgia in view of the fact that his views regarding the league of nations coincide with those of Thomas E. Watson, and that he desires to support the candidacy for Mr. Watson.

Mr. Williams, in asking that Mr. Gore call together the state committee to consider his withdrawal, states that his reasons for withdrawing are similar to the republican attitude on those questions, and, consequently, call for his support of Mr. Watson.

He adds that Georgians are beginning to assert more political independence and that he is assured that some person will go to the aid of the man who stands for the principles for which he stands and for which he is generally standing.

In view of this fact, he states, there is no need for him to remain in the race, as he is sure that the interests of the republicans in Georgia to combine with Watson in this campaign.

The withdrawal of Mr. Williams will leave the fight for the senate between Mr. Watson, democratic nominee on an anti-league platform, and Harry S. Edwards of Macon, independent, on a platform favoring entrance to the league on the part of the United States.

**Atlanta Forgets  
Age and Dignity  
On Day of Circus**

Children Enjoy Themselves Hugely Under Big Top, and Aged Become Young Again for the Time.

BY PAUL WARWICK.

"Honey, my boy is all sorts of people at this circus, rich and poor, everybody's come to see it."

Amanda, "Liza or whatever was the name of the dusky female who uttered those words to her Senegambian escort Monday night at the circus grounds—Amanda said it, but Amanda didn't say it in the same way."

Amanda forgot, for instance, to predict that Dreamland for Atlanta tows on Monday night would be a wondrous place; she forgot the stimuli to childish happiness and wonderment that rolled, slap-stick, rode, whirled and did marvelous stunts beneath the big top of the Ringling Brothers-Barnum & Bailey outfit at Jackson and Wheat streets.

Visions of beautiful ladies in spangled tights, funny elephants and much funnier clowns, long-necked giraffes and waddly bears, twistable contortionists and graceful acrobats, colored balloons, peacocks, side shows and cowboys—there was a wonderful maze in the kiddies' dreaming paradise last night. It's kind tradition that calls the circus the child's occasion, but the thousands of grown-ups lopped decades, scores, and maybe more, from the ways in which their ages affected them, and nobody thought them silly.

Young and the Old.

A kindly, gray-haired old man, wearing on his lapel the bronze Maltese cross of a hero of the confederacy, held on his knee a laughing, blue-eyed, curly-haired lad, who called the good old man "granddaddy"—there was no possible method of ascertaining who was enjoying most the antics of the clowns and their antiquated filver.

It's not rash to believe that there is a special reward in the beyond for circus folk, since it is not good to think that the creation of so many ripples and gurgling peals of childish laughter will go unnoticed in the final summing up.

People at the circus doubted that there was an immense crowd at the fair, just as patrons of the fair wondered how the circus could afford to appear in the small remainder of the vicinity's population they imagined available for the rare-rings show. Both places were jammed, standing room under the canvas being a popular thing, of necessity.

There were examples of this sort for her to realize how big she really is. Fortunately, circuses don't change much. Mary, the mysterious monkey-like maiden; the knife-digester, who swallows swords, saws, spears and sewing machines; the wild man, who is really a rare rambler; the dainty dancing dwarf, the tiniest terpsichorean—all these are em-

blazoned on the various side show escutcheons.

As Much Bally-hoing.

There is still as much bally-hoing as ever, voices are just as raucous and alluring, the line of chatter is just as fluent and polysyllabic as in the days when F. T. Barnum uttered his famed axiom on the multiplicity of "suckers." About the only noticeable innovation in the circus of today, new to the circus of other days, is the bright henna color of the leopards, which by the way, has found the new name of "orangeade." No matter what its name, nor what its color, the circus poison will always be leopards until elephants and clowns are extinct species. The beautiful pink color has disappeared, however.

Oh, yes, there is one other thing which must not be overlooked in the resume of traditions. That's the callopes, which, if one is not sure as to from word's pronunciation may be called a steam piano. No thing that happened during the two performances of the circus Monday night brought the crowd to the situation that this really was a regular three-ring until the callopes broke into its many-throated screech.

The steam piano featured the parade Monday morning, also. All Atlanta saw the parade, from the police officers who led the caravan to the last puff of steam from the jazy callopes. The band wagons, the Irish Cossacks and the East Side matadors received their due applause from the thousands of young and old who lined the curb and poked heads from office windows.

New Orleans, October 18.—Representatives of 22 southern newspapers were meeting here today to discuss the launching of a \$250,000 advertising campaign in behalf of their publications.

Plans of the publishers call for an explanation to manufacturers, advertising agents, sales managers and allied interests of the exact business conditions in the south.

A. G. Newmyer, of The New Orleans Item, is chairman of the committee of publishers making the tour. Other members are: Harry C. Cohen, Atlanta Journal; Charles F. Gladden, Louisville Herald; and W. A. Elliott, Jacksonville Times-Union.

Publishers will contribute \$10 for each 1,000 of circulation.

**Concert Series  
Sale Will Close  
Within Few Days**

Only a few days remain in which concert patrons may take advantage of the reduced rates on season tickets for the All-Star Concert series, as the sale at the Cable Paine company will close Saturday of this week. The sale of seats for the recital by Titta Ruffo, on November 4, will be opened a few days later, at regular prices of from \$2 down.

**COMB SAGE TEA IN  
HAIR TO DARKEN IT**

Grandma kept her locks dark, glossy and youthful with Sage Tea and Sulphur.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandma's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.—(adv.)

ing the trouble of standing in line for the successive recitals. The demand has been heavy, but there still remain many choice seats in every division of the Auditorium.

The series will be opened by Titta Ruffo, the baritone, who is considered at the very top of the list, and Gail-Curtis, the great coloratura soprano, will sing on Thanksgiving night, with tickets from \$2.50 down to \$1.50. Ercen Zimbalist, the violinist; Schumann, Heink, the favorite of all contral-

tos, Rosa Fosselle, the dramatic soprano of the Metropolitan, and Josef Hofmann, the eminent pianist, make up the list of artists this season.

**There's No Picture Like the  
Picture of Health**

The greatest masterpiece in the Art Gallery of Life is Nature's "Picture of Health."

It is a marvelous portrait of the human body as it is. One beholds in its composition a true symbol of strength. It presents a figure of striking appearance in its erect carriage, clear skin, sparkling eyes, strong limbs, steady nerves and firm muscularity vibrating in animation—keen, alert, fresh, and spirited; with an air of unbounded confidence and a face radiant in color and illumined with a glow of hope and cheerfulness.

**LYKO**

The Great General Tonic

Nothing is more efficacious as a restorer of exhausted nerves and depleted vitality than LYKO, the great general tonic. It tends to renew worn-out tissues, replenish the blood, create new power and endurance, and revive the spirits of those who are weak, ill, languid and overworked. It is a reliable restorative, a splendid aid to digestion and a true tonic for the system. It is sold in original package only, like picture above. Refuse all substitutes.

# The Captive Cap

Another typical Kolynos achievement! A cap which clings to the container—an additional refinement which makes this Dental Cream more than ever an irresistible toilet requisite!

The *one weak spot* in all dental cream collapsible tubes has been the truant cap, which falls off and runs away and hides.

This "Captive Cap" makes of the Kolynos Dental Cream tube *the perfect package* for a preparation *always superb*. It is being welcomed by the public everywhere as one of those very essential things which supply a long felt want—a relief to the traveler, a convenience in the home, indispensable with the children, as distinctive as Kolynos itself.

The Kolynos Captive Cap is a patented device, used exclusively on Kolynos Dental

Cream tubes—a further evidence that Kolynos Laboratories are *always first*.

*First* to put on the market a distinctive, germ-destroying dentifrice, quickly put into use and kept in use by the Dental Profession the world over.

*First* to produce a dental cream without grit.

*First* to demonstrate, in war time and epidemic, the possibility and value of daily fortifying the entire mouth and exposed portion of the throat against dangerous germ invasion.

*First* to improve a dental cream tube by closing and securing its lower end with a rigid metal clasp.

*First, again*, in introducing the Kolynos Captive Cap, for keeping the condition of your dental cream laboratory perfect—always!

## KOLYNOS

What is the use of cleaning the teeth without cleaning the whole mouth?

What is the use of purchasing the dental cream recommended by a great majority of dentists throughout America and Europe unless you keep the contents of the tube in perfect condition, and so preserve all its properties?

Keep the cap on the tube!

Keep the dust out, and Kolynos in!

Prevent waste! Prevent mussiness!

The new Captive Cap does all this for you. It is one more step in the steady progress of leadership of this very efficient dentifrice.

## KOLYNOS

"How clean my mouth feels!" is the natural expression which forms on the lips of the Kolynos user.

This perfect cleanliness is produced because Kolynos destroys, in the mouth, and washes away, countless numbers of acid-producing bacteria, and dissolves the gelatinous film on the teeth in which these bacteria propagate.

It accomplishes this without the use of grit or any harmful ingredient.

The Kolynos formula is known to physicians and dentists generally, and is recommended and used by tens of thousands of professional men, the world over, as a safe and most efficient toilet of the mouth.

## Just from Georgia

By FRANK L. STANTON.

In the Land of Dreams.

The dreams are mine!

When dark slain the day

I wake from dreams of yore

Yet all I have in life to give

Sweetheart, are dreams and tears.

And dreams are tears to dreamers—

They that know

The midnight's gloom and gleams

And waking, miss the lips that

Kissed them so.

And cry: "The dreams! The dreams!"

What is the Light that God makes

On the hills?

The twinkling of the stars—

The twilight calling of the whippoorwill?

They only bring the dreams!

Still there is something in the green

World missed

For all its pride and state—

The Light that blessed Love's lips

That day he kissed

His sweetheart at the gate.

Sunlight and starlight from the

Worlds of light—

Life, and its faith-forms gleams,

But still across the dreary world

That cry—

"The dreams! The dreams! The dreams!"

That settled him.

When he told his wife that she

Ought to "give the devil his due,"

She replied:

"Yes; but it'll be a long time before

He gets it—yours in such good health!"

Nuggets from Georgia.

C. J. W., in the "Georgia Sunshine"

column of The Red and Black:

"When women barbers open up

shops in Atlanta, they will not

have men with long whiskers on their

face.

"Some men are so lazy that they

wouldn't accept a job winding an

eight-day clock and tearing the

leaves off the calendar.

"This is an age of preparedness.

Just after a bride completes her

honeymoon, she gets to wondering

how she would look in black."

When Winter Comes.

When Winter's ready for to bring

The old-time sleet and snow,

You'll hear the friendly ring

The songs of Long Ago.

The dreams will come

From days of old.

With all the joys

Love's arms can hold.

So, let the winter's storms rise

Higher

And to the dark night call:

The singing of a friendly fire

Is recompense for all.

We'll gather dreams

From days of old.

With all the joys

Love's arms can hold.

The Speeding World.

The musings of Philosopher Sim-

mons, in The Kansas City Star:

"The world never moved so fast

before. We have winter ice on the

Fourth of July, spring vegetables on

Christmas; we buy our straw hats

in February and our felt hats in

August; we get our Sunday paper

on Saturday night, and our maga-

zines a month ahead of time. If we

telephone a man in San Francisco

from New York, he hears our voice

four hours before we speak, and

if someone in Japan sends us a

cablegram tomorrow, we get it

today."

The Frosty Days.

Fix them buckles for the chimney:

Now you glimpse the frosty days.

An' you'll hear the cold wind

whistle.

An' you'll see the fire blaze!

Chuck the red coals, heat the

griddle.

Fix up the dancin' set.

Fetch the banjo and the fiddle.

An' thank the Lord you're livin' yet!

Turned Down by the Government.

"Poor Brown has given up all

hope of a government position."

"My, my! how did that happen?"

"Well, they took him before the

civil service folks, an' jes' because

he failed on geography, an' spellin'—

an' 'rithmetic, an' sich, they actu-

ally turned him down."

"An' what's he goin' to do now?"

"Lord knows! I reckon he'll have

to go to teachin' school!"

In the Wake of It.

There is so little time. Take out

the necessary hours for food and

sleep and play—and there are

so short a time in which to do the

work of one's life.

How important to remain in the

thick of what is to be done—until it

is done!

Keep wedging into the center of

things where you are most needed.

There are too many on the sidelines.

Not every one is trying to get into

the thick of things—so you are

have a greater chance for distin-

guishing yourself in service there.

Those who get into the thick of

things get the greatest satisfaction.

They come into knowledge through

directing at first hand.

And there is no greater satisfaction

than to work at the heart of a task.

Men are accomplished for more

than one thing.

But the greatest reason for being

in the thick of everything is that

the largest amount of fun is there.

Camphor production is the most interesting industry of the island of Formosa. This island is said to hold a practical monopoly in the world's market of this valuable drug. A single average tree will yield about 45,000 worth of camphor.

It is estimated that upward of 20,000,000 women are eligible to vote in the coming presidential election in the United States.

## MOTHER!

"California Syrup of Figs"  
Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."—(adv.)

## Famous Old Recipe for Cough Syrup

Really and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup. It is simple and cheap but it has no equal for prompt results. It takes right hold on a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any drugist, pour it into a pint bottle, and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract known the world over for its healing effect on membranes. Avoid disappointment by asking your drugist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. ## OUTLOOK IS GOOD FOR DEMOCRATS, SAYS HOLLOMON

Constitution Correspondent Is Cheered by Conditions in Ohio, West Virginia and Pennsylvania.

BY JAMES A. HOLLOMON, Constitution Staff Correspondent. Wheeling, W. Va., October 13.—Standing here on the border lines practically of the great states, West Virginia, Ohio and Pennsylvania, two of them pivotal in the approaching election, and one dyed-in-the-wool republican, I can watch the campaign that is raging in its closing days as none has before since the civil war, in all its varied angles, and in all earnestness and sincerity. I say that the tide has turned toward democratic triumph as swift as it is sure. And yet so

violently has the flame of prejudice against the league been fanned by the republicans, radicals, pro-Germans and a few Wilson haters in the democratic party that it is just a question now as to whether it can reach the floodgates of victory by November 2. With the increased momentum that every day develops now it looks entirely probable that Governor Cox will be the next president of the United States.

**League Question Grippings.** The campaign of 1920 promises to be long remembered for its service in stirring America's normal consciousness to vigorous life. On every hand there is compelling evidence that the great question of the league for peace has gripped men's souls and led them boldly to cast aside all personal considerations, all partisan preferences, that they may raise their voices in an issue that transcends all ordinary standards of measurement.

Conception of the volcanic effect of the awakening may be found in Pittsburgh and Wheeling, long hailed as the very centers of rock-ribbed republicanism. On every hand one finds men and women of prominence in political, business and social activities who have frankly and powerfully renounced the candidate and policies imposed upon a party they long have served. It is evidence of the fundamental health of the public life, that thousands of leaders give themselves for a moral principle.

In West Virginia the great tolling masses are rallying to Cox not alone because he answers the call of labor best, but because deep down in the heart of the working man he feels that the league of nations

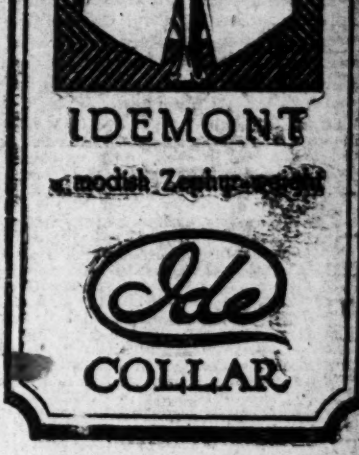

is a league of peace and that his own future prosperity demands a normality that only the ratification of the treaty can vouchsafe. I have ridden through the vast coal fields of the state during the last two days and from half the windows of the modest little homes can be seen the pictures of the democratic candidates, and frequently by the side of them is a tiny American flag, or the familiar emblem of the Red Cross, which denotes the loyalty and Americanism of these manly operatives.

**Whirlwind Campaign.** It is a whirlwind campaign from now on. The air is charged with the one great issue. The women are taking almost as active part as the men, although in this state it is their first experience. They carry candidate banners on their automobiles, and scores of women's clubs are busy rallying the women to the necessity of their going to the polls. Particularly is it imperative from a democratic viewpoint, because the negro vote has been the balance of power that has made West Virginia normally republican and a majority of the white women of the state were originally opposed to suffrage, the great moral issue of the league has aroused them as nothing before. Now they are actually taking the lead in campaign enthusiasm and vigor.

Running over into a corner of Ohio last night, I caught a glimpse of the feverish excitement in that state, which is the great home battle front for both candidates. The close personal touch of "Jimmy" Cox with the people of his own

state, regardless of party, makes it almost assured that he will carry Ohio again. He is held with an affection by his own people that is little less than marvelous. His administration have been so productive of constructive legislation and his own personal democracy has so keenly appealed to people of all classes, that it is not difficult to figure Ohio in the Cox column, although it is a normally republican state, particularly in national elections.

**Disgusted With Harding.** I find republican leaders here and elsewhere actually disgusted with the wobbling and wiggling attitude of Senator Harding, not alone on the league, which he has jumped over both ways and straddled, but on all public issues that have pressed him. More and more it is evident to them that he is lacking in fixed convictions on anything and is but the pliant tool of a handful of reactionaries, headed by Penrose, Knox and Lodge. Many of them do not hesitate to express themselves in private conversation. Therefore, despite the wild claims of Will Hays, the democrats of this country are driving upstream at a rapid pace with satisfactory prospect ahead. In the meantime it is necessary that in the south where white primaries are considered the only elections that the democrats go to the polls on November 2, so the no democratic candidate or state electoral vote gets tripped up by de-

Both Felt the Need of a System-Builders, So They Took Ziron. Read Husband's Story.

"I BECAME INTERESTED in Ziron Iron Tonic, so bought a bottle for my wife, who had been in a bad state of health for a number of years," writes Mr. W. C. Christenberry, of Milan, Tenn.

"She had poor appetite, headache, digestion was bad, and she was in a tired, run-down condition generally. She had taken a great deal of different kinds of medicines, receiving very little benefit from any of them, but she began to improve from the first bottle of Ziron."

"And I was not in much better condition than my wife, so I began taking it, also, and am greatly improved."

"We both, together, have used six bottles of Ziron; results have been

highly satisfactory; do not hesitate to recommend it as a tonic and builder to those needing a tonic." Ziron is a tonic for your blood and nerves—a general system-builder, good for pale, weak, anemic men and women and children.

You will find Ziron Iron Tonic on sale at all good drugists.

The marriage of Miss Bertha Catherine Gardner and Mr. Oscar J. Cadwallader, of Jersey City, was an interesting event of yesterday at noon, taking place at the home of the bride's mother, Mr. F. H. Gardner, Waverly Way, Inman Park.

Mrs. Lella A. Gardner, the bride's mother, was gowned in black crepe de chine embroidered.

After the ceremony a breakfast was served in the dining room. The table centerpiece was a silver basket of autumn flowers in yellow, and all the color details were white and yellow.

Emerging from the Vanderbilt scrap in superb condition, the Golden Bears of the University of the South Atlantic defeated the Grant field again yesterday and beat the Vanderbilt team of the royal with Pittsburg Saturday. New Orleans, La., October 15.—Baseball fans can safely look forward to a hard-fought December 15, when southern moguls assemble for the annual meeting in Memphis. The hard-fought subject is tackled is the re-election of John D. Martin, president of the league.

"Frank takes the stand," Mayer said. "If they want to fight let them go to it. He has no interest in the squabble, and so far as the league is concerned, he is within its limits. He can stand it as well as anybody." The probable one catalyst.

Some interesting announcements may be made at the meeting. One

touch with the station, will be in his favor.

Frank, owner of the Little Rock club, in all probability will lead the fight against re-electing the Atlanta club to the league, however, is said to be aware of the fact that he will finish second, but is going to fight just the same.

At the moment, the magnates, the present one is going to be just a wee bit different. The Atlanta club, which has been the Atlanta mogul, will not engage in the hostilities. It is understood that it will not be in the line for the season, but be represented by Sammy Mayer, or not at all. When the Atlanta club is dropped, or two ago dropped the hint that neither Frank nor the Atlanta club is going to take sides in the fight.

Freddie Graft, manager of the Chattanooga club, may become a candidate for the season. Reports from Chattanooga have it that he is dickering with the Nicklin, Atlanta club, for the position of chairman, the controlling interest of the Lookouts and that Nicklin will return to West Point as coach of the best team in the league.

Almost every Southern league club will be represented at the annual meeting of the Southern Association of Minor Leagues at Kansas City the first week in November. It is expected that the delegates to find most of the moguls purchasing material for the 1921 season.

# Dream of His Career Realized

BY CLIFF WHEATLEY

## When Jake Abel Meets Britton

Next month Jake Abel, welter-weight champion pugilist of the south and Atlanta's best offering in a ring way, will realize the dream of his career when Jack Britton, welterweight champion of the world, will be brought to the city to battle with our own Jake. Jake has spent the better part of ten years fighting good boys. As we recall his record, Abel was furnishing headlines for himself over a score of fights, and he never

ing the winter months, and recently announced several bouts that look like they will be big ones. On the 28th of this month, the devotees will have the opportunity of seeing Battling Bill Baley walk Miller's young lightweight in action against Harry Grebb; "Young" Denny, of New Orleans against Sailor Dixon; and Battling Budd against Larry Avery.

**This Denny Boy.**

We know enough of Battling Bill and Grebb to pick over them in the discussion and take up "Young"

Denny, the fighter who is taking the place of the late Fred Bigby, said Denny has been in the game for many years, and was just on the way down. He said he had no stride he had been seeking since the time he began his boxing success began when, with the dope against him, he gave Martin Burke, a heavyweight contender, a select trimming.

The fighters' managers are quick to show that the victors are nothing more than the victors. They again beat Fred Bigby's boy in a side of the matter was ended by Denny fights for big guaranteed money. The fight was probably costing Promoter McDonald

has a date with fate. With encouragement until that time.

**To Meet Perry.**

Earlier in that month, Jake will meet Jack Perry, the Pittsburgh aviator, in a fist-bout, and the old squabble between these two brawling warriors will hot up again. Thus far Jake has never fought Perry in Atlanta, although the boys have had several encounters, all of which having been staged in Norfolk.

We have Jake's word that Perry is in the city, and he has been called upon to crack excepting Benny Leonard, who is anybody's hardest hitter. The fight will be between Perry and Abel resulted in

quite a sum to match him in Atlanta.

**JACKSON EXPECTS TO STAY IN REWMAN NATIONAL GAME**

Savannah, Ga., October 18.—(Special.)—Joe Jackson, Chicago baseball player, accompanied by his wife and two children, Mrs. Wm. S. White, are in Savannah to remain through the winter season. Jackson did not take of the recent baseball scandal, but

draw, but Jake lost the next time. He said he was sure that a Pennsylvanian had the edge in points. Ferry's latest feat, and the one that brought his name to the fore among the welters, was in knocking Britton down for a count of ten.

This added much to Ferry's prestige, and already the wise prologues of the fight had made him as the best drawing card against Britton for the title. Jake told the writer recently that he certain he could whip Ferry, and welcomed just one more crack at him.

But the writer recently told Promoter McDonald is apparently seeking to enable Jake to realize his ambition.

J. Humidor is prepared to give the railbirds some good cards during the fight.

declared that he has not given up baseball. He said he had messages from several managers offering him places for another year, but had not decided where he will go. He does not expect, however, to be in professional ball many more years he said. Jackson has made his home in Savannah, Ga., and will re-enter in business here. He said he will continue to call Savannah his home town.

## CHILDREN ENJOY FINE PLAYGROUND SHOW AT THE FAIR

Johnny J. Jones has made a great hit this year with the children's playground he has created on his "Joy Plaza," now a feature on the Lakewood midway.

A man and his wife brought two little kiddies up to the ticket box the first afternoon of the fair and said: "Here is \$2; let the kids ride till that is used up, and if there is any more to pay, I will give it to you when I come back." Then they went off in peace to see the rest of the fair.

These four riders have been built by Mr. Jones especially for the children and he is usually around watching them himself. He wants the little ones, who are too small to go on the big devices or who would be afraid to go, if their parents would let them, to have a time of their own.

## E. L. THORNTON RETURNS FROM TRIP TO THE WEST

Elbert L. Thornton, of Thornton's cafe, has just returned to the city after an extended trip to Cleveland, Cincinnati, Chicago, Louisville and other large cities, where he went to get first-hand knowledge of any up-to-the-minute methods in the conduct of a restaurant and cafe business. He has added feature to his own highly successful business in this city.

He declares that while he saw and learned some things which might add, in the main, to the efficiency and attractiveness of eating places, he is of the opinion that Atlanta has about as well-managed and as well-equipped places as any he saw anywhere.

## FATHER SEEKS CHILD WIFE DOESN'T WANT

Macon, Ga., October 18.—(Special.)—H. B. Evans, an employee of the T. C. Thompson Construction company, is making frantic efforts to locate his wife—not so much on her account as that of his 7-year-old son, who is with her.

Mr. Evans was reading an Atlanta newspaper a day or two ago when he came across a classified advertisement which had been inserted in the paper by his wife, offering their son, Elmon, for adoption by some "kind" family. Until he saw the advertisement, Evans was in ignorance as to the whereabouts of his wife and child. They had been separated for about a year. Since reading the advertisement Evans has made efforts to locate Mrs. Evans, but so far has failed to do so.
